I am not getting RC Trader emails to my Gmail account

Normally Gmail is very good when it comes to filtering RC Trader emails, but occasionally our emails may make it to your spam folder.

Firstly check both your Spam and junkmail filter folders to see if the emails are going there.

To ensure that emails are not blocked in the future, you will need to whitelist the domain "rctrader.com"

Here is an article that helps explain how to do that:

http://email.about.com/od/gmailtips/qt/et_whitelist.htm
