## RC Trader Mobile menu explained

The RC Trader website is based on what is known as responsive design. In general, this means that the page will adjust differently from one screen size to another or one device type to another.

So, on a normal large screen, the front page of the site will look like this:

On a mobile device less than 800pixel wide it will convert to a mobile device menu system.

The screenshot displays the mobile app interface for RC Trader. At the top, there is a navigation bar with a 'MENU' icon, a home button, a search icon, a 'SELL' button, and a user profile icon. Below this, the 'Region' is set to 'Australia'. The main header features the 'RC TRADER' logo and a featured product banner for 'FT SKY Taranis X9D Plus Transmitter'. A 'Categories' section lists: 'New items (135)', 'Used Items (823)', 'Wanted (176)', 'Services (2)', and 'Club Info (7)'. A search bar is located below the categories. The main content area includes a section titled 'RC Trader - FREE RC Classifieds!' with a description: 'Australia's largest dedicated Radio Control classified listings & trading site. To view the listings from a specific category, select one of the categories below. To contact the sellers, first register, then login.' Below this text are three buttons: 'SUBMIT A LISTING', 'HELP', and 'HOW IT WORKS'. On the left side, there is a vertical menu with four items: 'World Hobbies', 'WINGSLAND', 'Programmable Power Supply', and 'SIVA'. On the right side, there are two promotional banners: 'TAKE FLIGHT JOIN THE MAAA NOW' and 'Citibank Online Saver 3.05% p.a. Variable rate for the first 4 months\*'. A 'Learn more' button is located at the bottom of the Citibank banner.

The main differences between the two are:

- The mobile navigation menus
- The one column format

The three lines on the left side of the menu will display the normal menu system:
